

One of our key services, the Living As A Leader Leadership Development Series, is a comprehensive, steady-progress-over-time approach that equips leaders with depth and breadth of skill and knowledge. Participants include supervisors, managers, and other key leaders. In addition to offering this Series in-house, it is available as a Public Series option. This provides you the opportunity to send one or a few leaders at a time, launching each spring and each fall.

The Series consists of two critical elements for supporting the growth and development of leaders—skill-building workshops and coaching sessions with a leadership coach. Coaches help to ensure application of newly gained knowledge and skills in the workplace.

Leaders who successfully complete the Series will be workplace-ready—intentional and confident with the choices they make, instinctively knowing what to say and what to do.
